Projects

•Portfolio Web Project

I created a portfolio website using React and TailwindCSS, showcasing my projects and skills in a modern, responsive design.

Deployment link : <https://portfoliob190a.web.app/>

•Weather Web Project

I created a weather website using HTML, CSS, and JavaScript, providing users with real-time weather updates and forecasts.

Deployment link : <https://induware90.github.io/Weather-APP/>

•Bhawa Web Project

I created a React-based website for the "Bhawa" talent show, providing users with detailed information and updates about the event.
